

Solutions to One-Mark Questions

Q1. Types of scale?

Answer: Plain scale, diagonal scale, vernier scale, comparative scale, scale of chords.

Q2. Types of lines?

Answer: Continuous, dashed, chain, thick, thin, and dotted lines.

Q3. What is IOS?

Answer: IOS stands for Indian Standard Organization, governing technical standards.

Q4. What is projection of plane?

Answer: Representation of a plane on a 2D surface using projections.

Q5. Difference between plane scale and diagonal scale?

Answer: Plane scale shows two dimensions; diagonal scale shows three dimensions.

Q6. Difference between HB, 2H, 3H, 4H pencils?

Answer: HB: medium hard, 2H: harder, 3H: very hard, 4H: extra hard.

Q7. What is parabola?

Answer: A curve formed by the intersection of a cone and a plane parallel to its side.

Q8. What is eccentricity?

Answer: Ratio of distance from the focus to the directrix (denoted by 'e').

Q10. What is RF?

Answer: Representative Fraction: ratio of drawing size to actual size (e.g., 1:100).

Q11. What is scale?

Answer: A tool used to measure and represent dimensions proportionally.

Q13. Write name of lines?

Answer: Horizontal, vertical, inclined, parallel, perpendicular.

Q15. Define enlarging scale and reducing scale?

Answer: Enlarging: Scale $> 1:1$; Reducing: Scale $< 1:1$.

Q16. What is mean of scale 1:1?

Answer: It means the drawing size equals the actual size.

Q17. What is true length?

Answer: Actual length of an object as opposed to its projection.

Q18. Draw parabola of distance 60mm from directrix?

Answer: Use focus 60mm away; follow standard parabola construction method.

Q19. Define the projection of plane?

Answer: The representation of a plane figure on a 2D surface.

Q20. Draw when point is front of 50mm of VP and 30mm above the HP?

Answer: Plot point 50mm in front of VP and 30mm above HP.

Q21. Draw when point is behind of VP of 50mm and above the HP is 40mm?

Answer: Plot point 50mm behind VP and 40mm above HP.

Q23. Difference between first angle projection and third angle projection?

Answer: First angle: object between observer and plane; Third angle: plane between observer and object.
